DETAILED ACTION

Summary

Receipt of Applicant's Response and claim amendments filed on 02/05/10 is acknowledged. Claims 16-17 and 33-36 are pending.

Examiner's Amendment

Authorization for this examiner's amendment was given in a telephone interview with Michael Ye on 05/06/10. Regarding claims 17 and 35-36 the word preventing will be replaced by the word suppressing as follows:

Claim 17. (Currently Amended) A method for [preventing] suppressing roughness and improving conditions of a skin comprising: applying to an effective amount of a skin external composition comprising 1-40% by weight of an insoluble powder having a negative value of zeta-potential measured in Tris-HCl buffer at pH 7.5 and a main ingredient of barium sulfate doped with a metal ion; wherein said powder has an average primary particle diameter of 3 to 100 μm and aspect ratio of 3 to 250; and wherein said metal ion is one selected from the group consisting of lithium, sodium and zinc.

Claim 35. (Currently Amended) The method for [preventing] suppressing roughness and improving conditions of a skin according to claim 17, wherein said barium sulfate doped with a metal ion is obtained by mixing a barium compound

solution containing a barium ion and a metal salt compound solution containing a metal ion, and adding the mixture to a sulfate compound solution containing a sulfate ion.

Claim 36. (Currently Amended) The method for [preventing] suppressing roughness and improving conditions of a skin according to Claim 35, wherein the barium ion, the sulfate ion and the metal ion has a mole ratio of 1 to 0.5-2.0 to 0.001-10.

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

The closest prior art of record JP 05058624 ('624) which teaches sodium doped barium sulfate for cosmetic make-up with 'excellent masking and feeling in use' does not teach "the method for recovering barrier function in a skin" or "a method for preventing roughness and improving skin conditions of a skin" and neither does it teach the amount of the doped powder in the skin composition of "1-40% by weight".

Therefore the claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 16-17 and 33-36 are allowed.
